Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by Gries et al (US 2003/0186165). Gries et al teach all the limitations of the instant claims. See the whole document, including claims 1-20.

The applied reference has a common assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention “by another,” or by an appropriate showing under 37 CFR 1.131.

Claims 1-20 are rejected under 35 U.S.C. 102(a) as being anticipated by EP 1 349 006 A1. EP ‘006 teaches all the limitations set forth in the instant claims. See the whole document.

Art Unit: 1796

Claims 1, 2, 9, 10, 15 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0 741 333 A1. See the Abstract, page 4 and the Examples.

Claims 1, 2, 9, 10 and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 97/35232. See the components of the compositions disclosed on page 4, lines 1-15, page 6, line 18 to page 7, line 29, and page 14, line 21, to page 15, line 21. A method of coating and curing by UV exposure followed by developing is disclosed in Example 5.

Claims 1, 2, 9, 10 and 14-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Zertani et al (5,066,564). Zertani et al disclose compositions comprising a photoreducible dye corresponding to some of the optical brighteners set forth in the instant claims. See column 5, line 18, to column 6, line 42, and column 7, lines 9-43.
